

Virginia's Highway Performance

Report for the Reason Foundation, 2008

David T. Hartgen, Ph.D., P.E.

Emeritus Professor of Transportation Studies

UNC Charlotte

Remarks to the

Virginia State Transportation Board

Winchester, VA

September 17, 2008

Overview

- Expenditures
- System Condition

- Compare with nearby and others:
 - NC
 - WV
 - TX
 - MD

Highway Performance Trends

System Size

Miles Under State Control, 2006

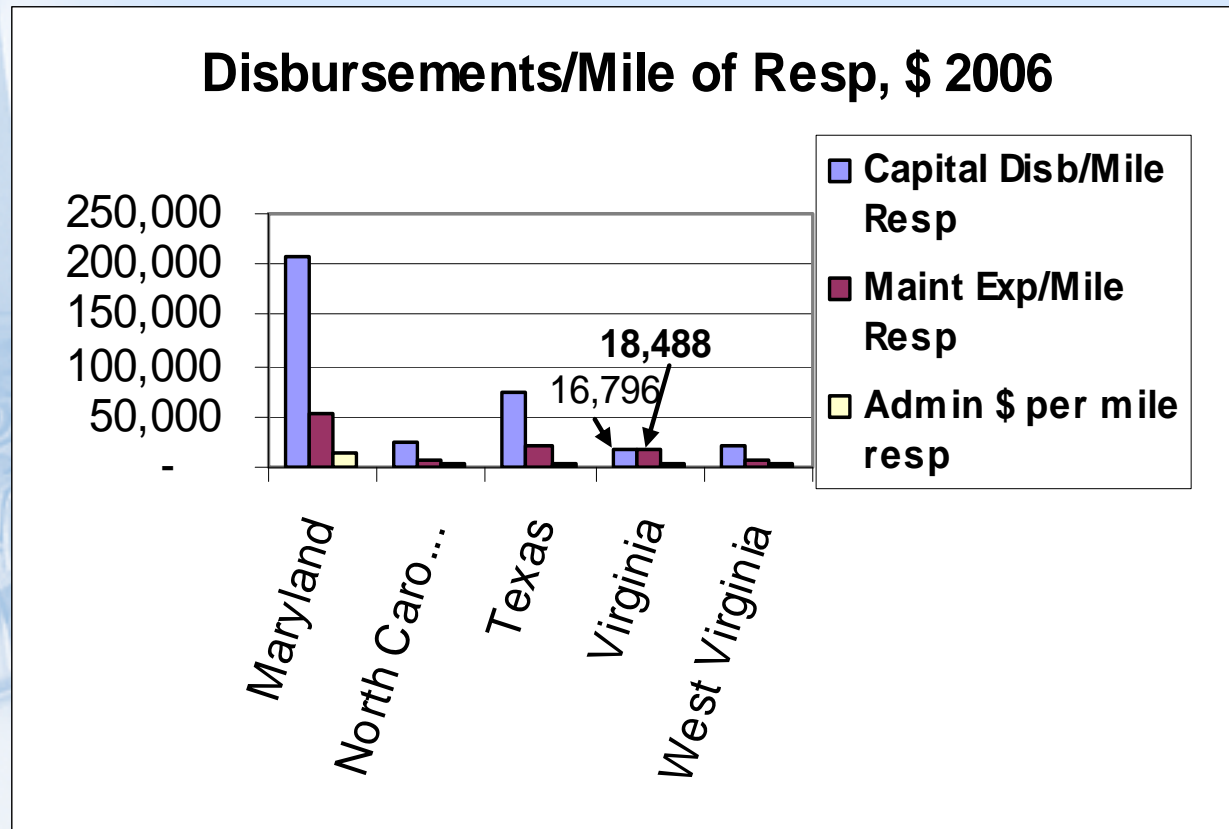

Budgets

Highway Budgets, \$K, 2006

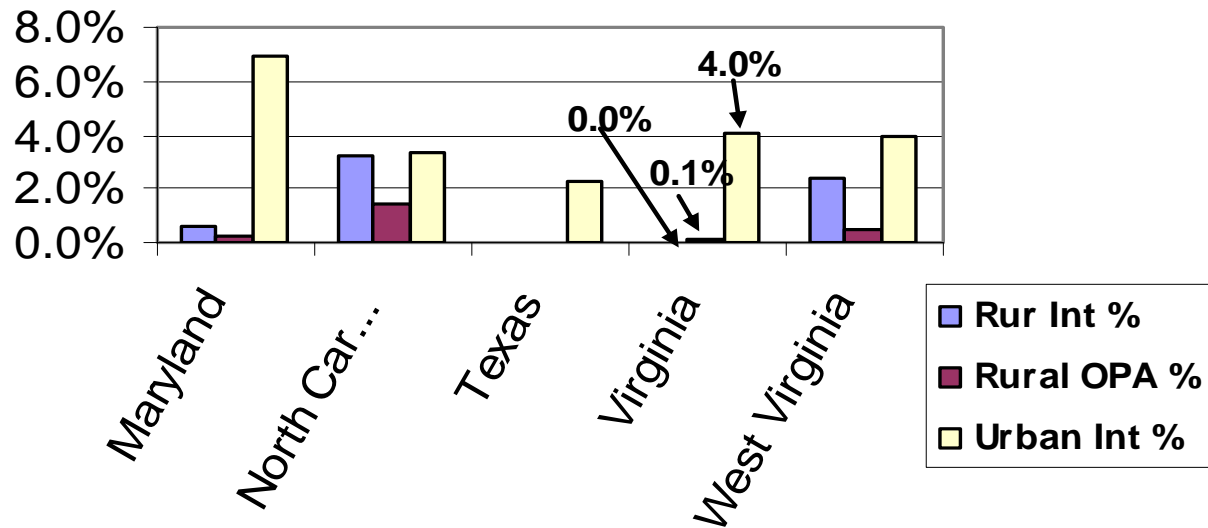

Disbursements vs. System Size

Road Condition

Pavement Condition, Percent Poor, 2006

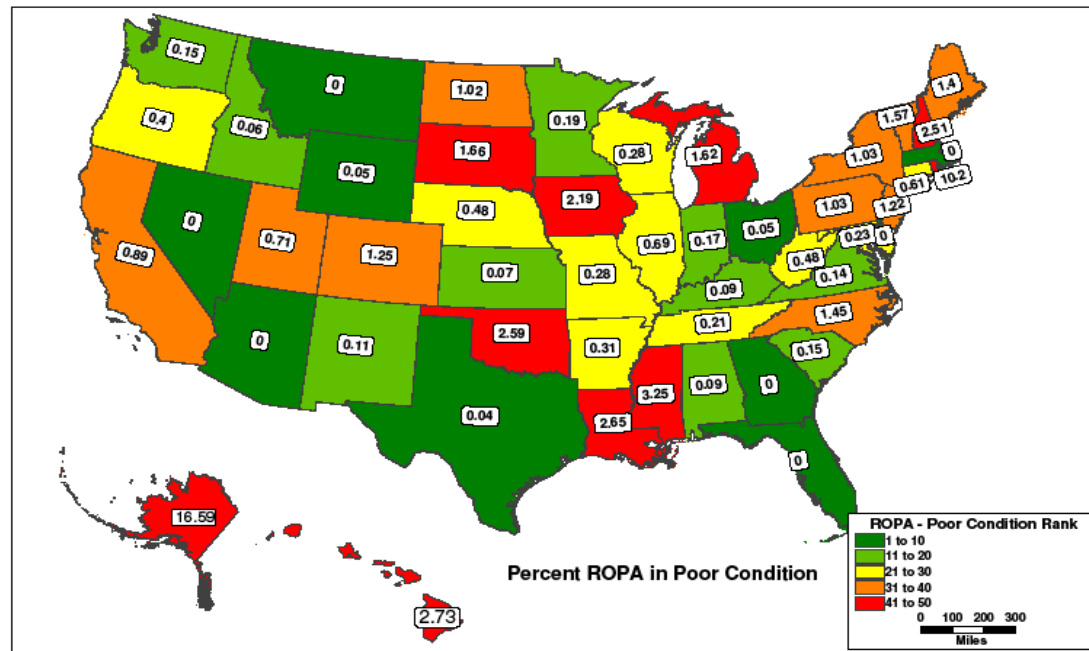

Rural Interstate Condition

Urban Interstate Condition

Rural Arterial Condition

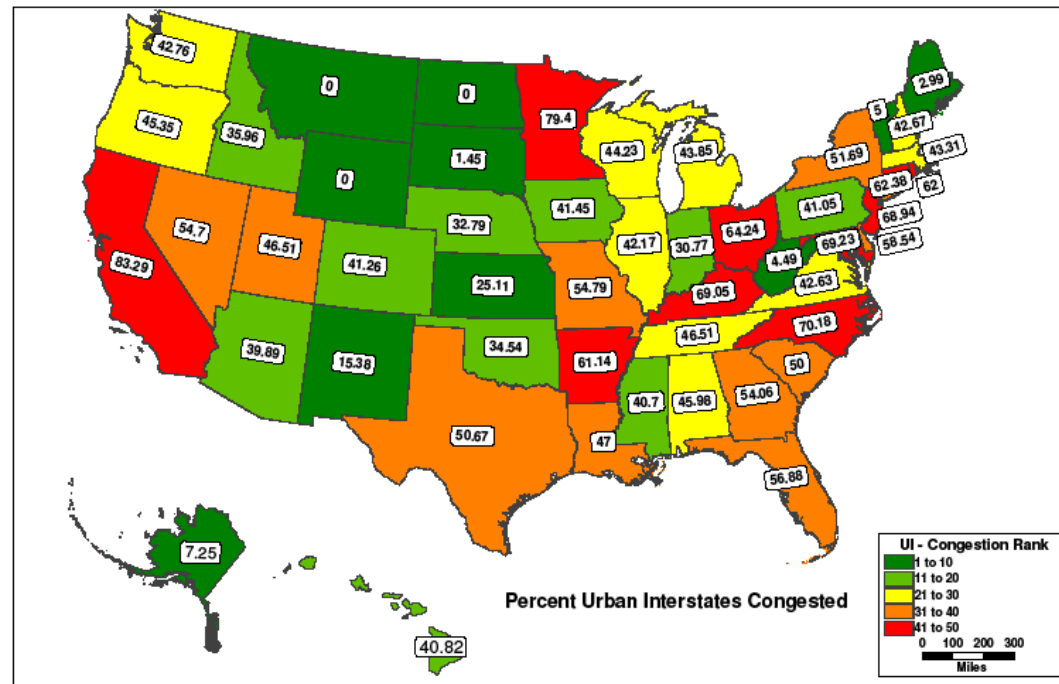

Congestion, Narrow Lanes and Bridges

Congestion, Narrow Lanes, and Deficient Bridges

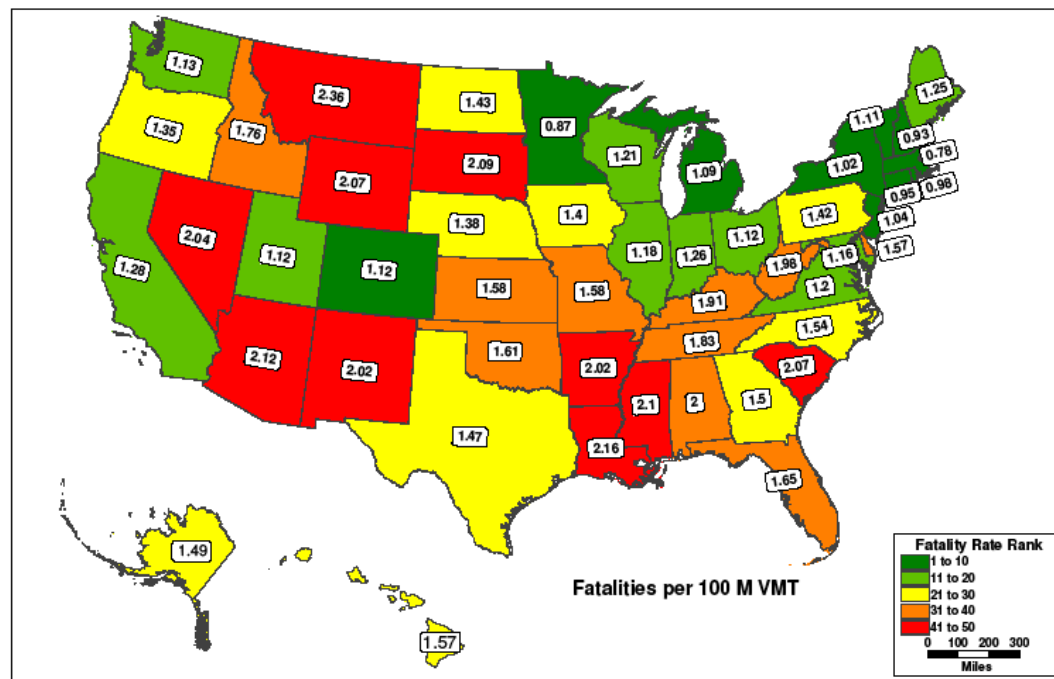

Urban Interstate Congestion

Fatality Rates

Fatality Rates

State Rankings, 2006

Overall Ranks, 2006

SUMMARY:

VIRGINIA'S STATE-OWNED HIGHWAYS, 2006

- 57505 miles 3rd largest
- \$ 2.83 B budget 7th largest
 - 34 % “Capital”
 - 37.5 % “Maintenance” 1st
- Status
 - Rural Interstate Pavement 1st (tie)
 - Urban Interstate Pavement 28th
 - Rural Primary Pavement 16th
 - Urban Interstate Congestion 22nd
 - Fatality Rate 16th
 - Deficient Bridges 22nd
 - Narrow Lanes 45th
- **Overall Rating** **16th**

Study at reason.org, June 2008

Additional Information

- Performance of Lower Systems
- Sub-State Performance, Budget, Effort
- Tie Maintenance to Condition, Expenditure, and Effort
- Track Sub-State Condition over Time
- 'Real-time' Traffic and Condition
- Map-based Condition and Traffic
- Integrate with Municipal Data

The background of the slide features a light blue gradient with a faint, semi-transparent image of classical architectural columns on the left side. The columns are white and have ornate capitals. The entire slide is framed by a thin brown border.
